

train station

Students Name	ID
Khaowlah Zakariya	2200002105
Fatimah ALharz	2200004362
Dema ALghamdi	2200001218
Amal ALotaibi	2200001746

Instructors :

L. Ezaz Aldahasi

TA. Fatimah Almuhammedsaleh

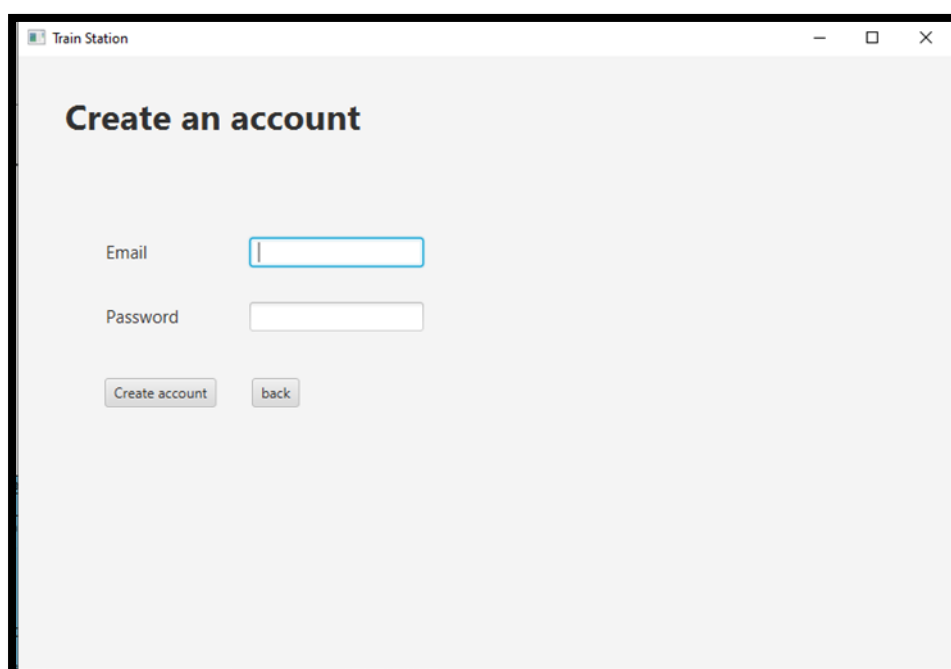

Academic year 1443-2022

How will the program work?

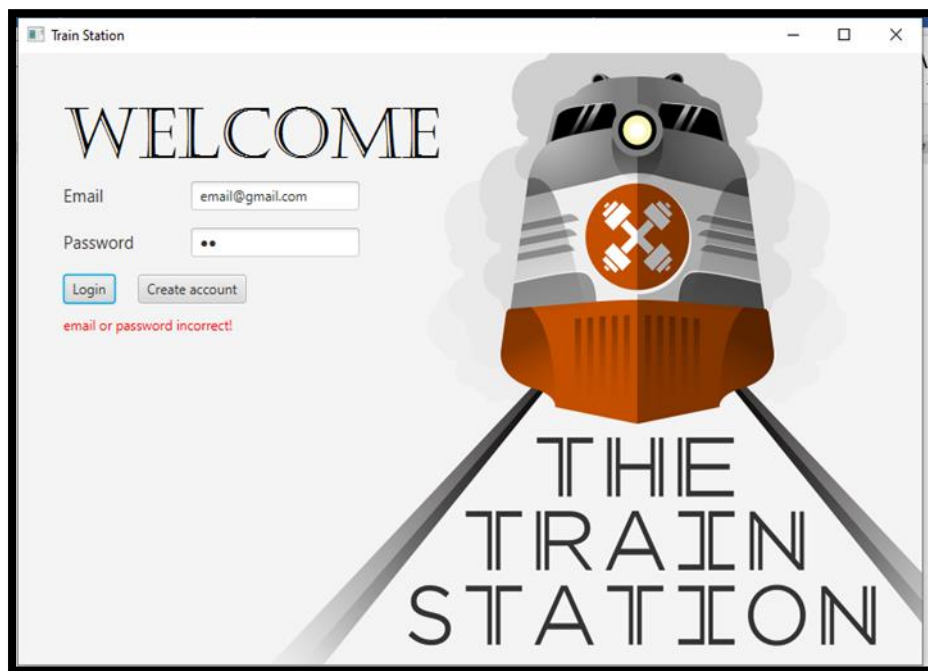

First : User enter his email and password to login or click on create account to create new account with user role:

Here the user will insert an unique email and a password.

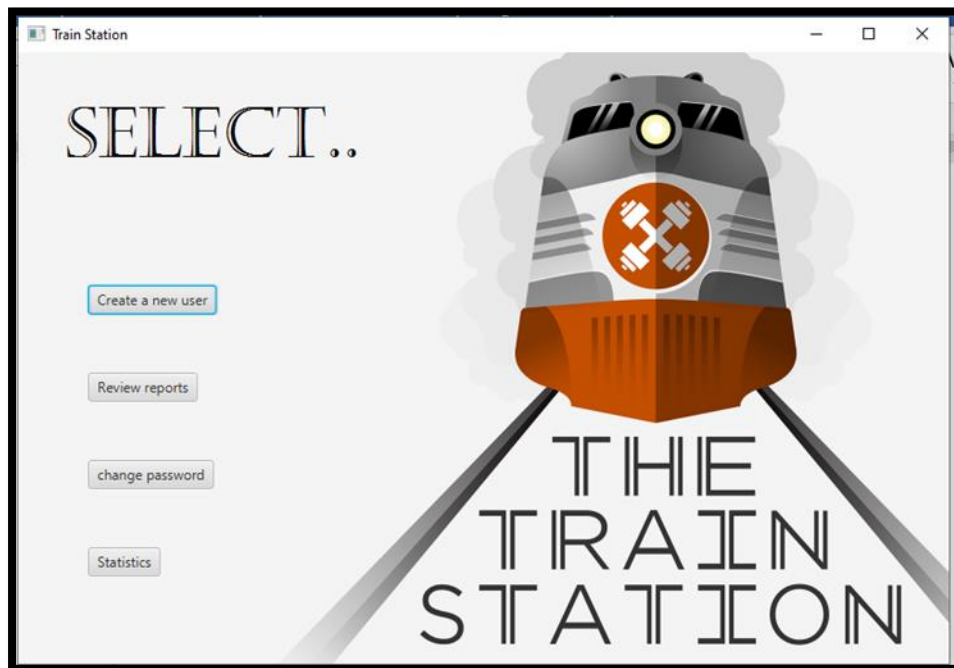

If user click on login button, then if either email or password incorrect, a message will appear

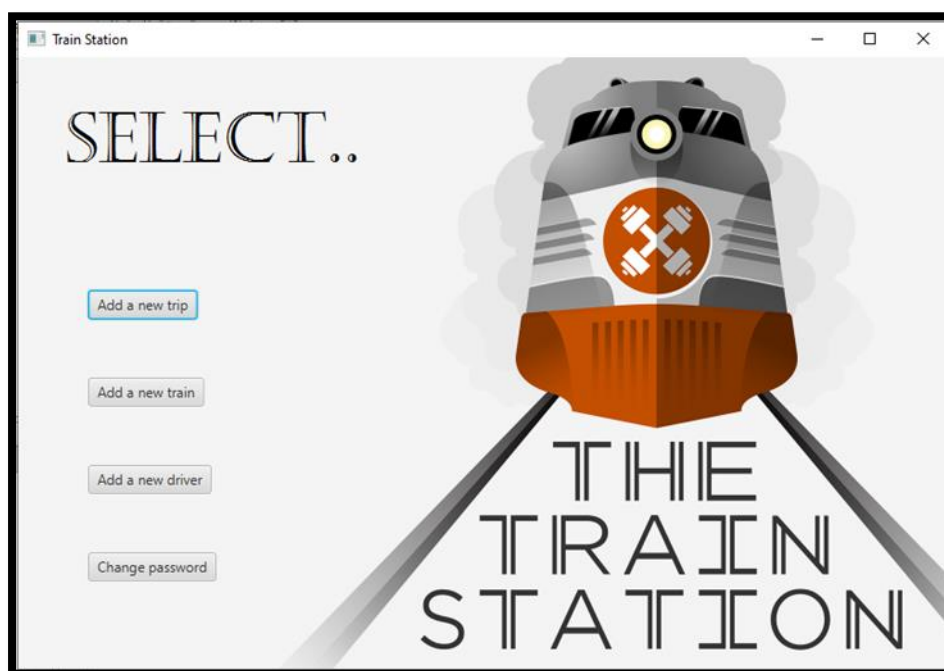

If both of email and password correct then the next interface will appear depending on user role:

Admin role:

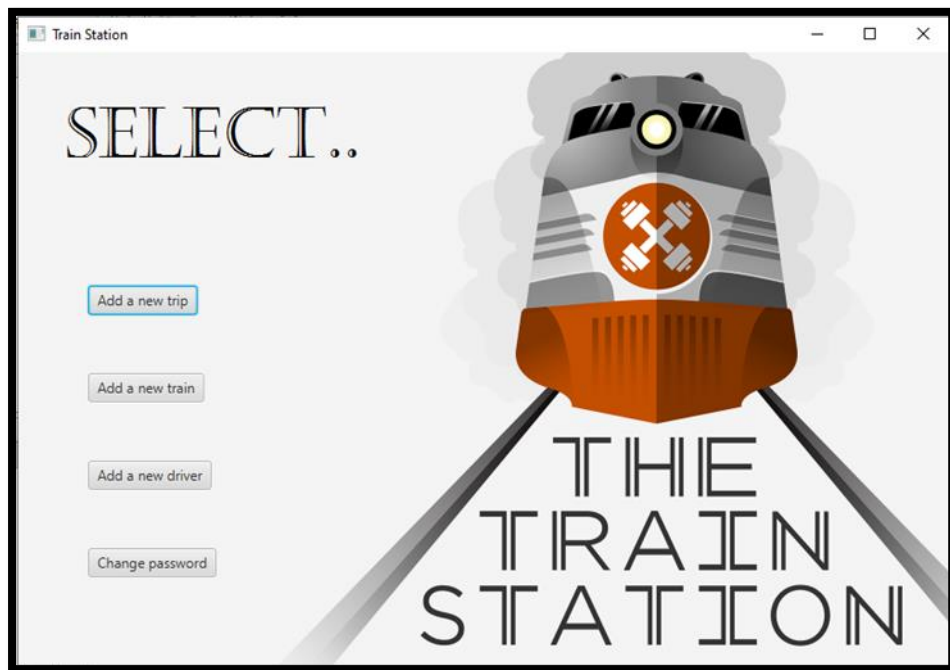

Employee role:

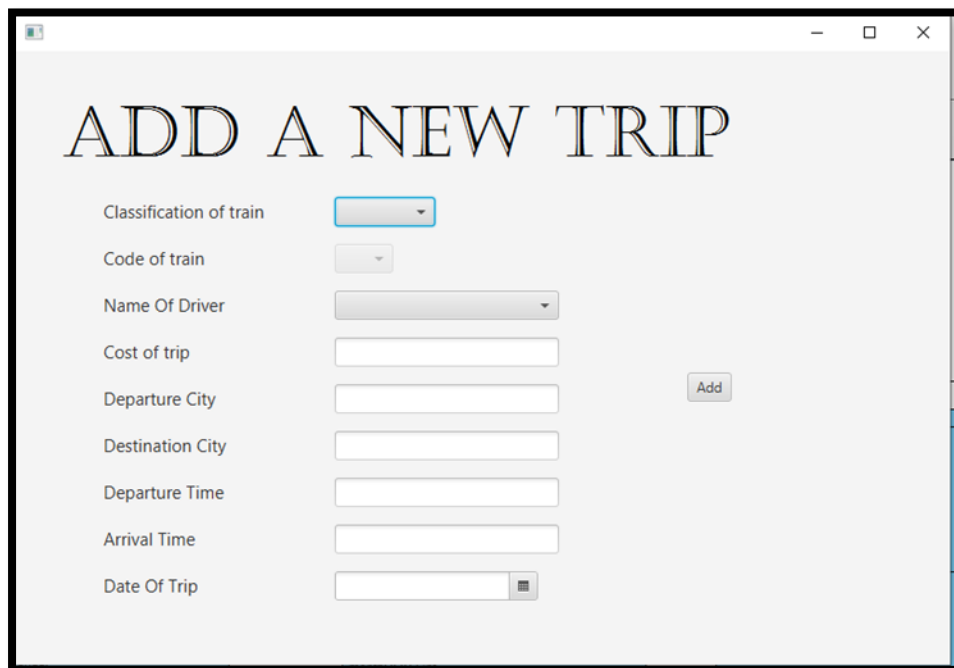

Employee interface:

If the employee click on “Add a new trip” then:

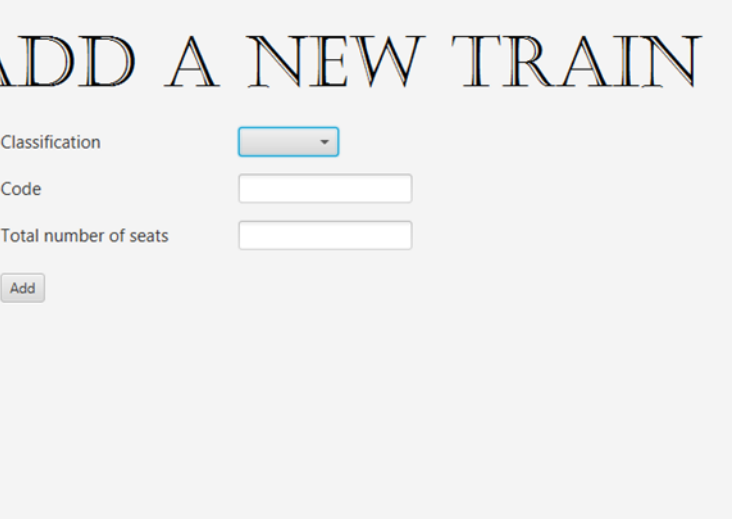

Here employee should fill fields .. when choosing classification of train then he can choose any train has same class..

A screenshot of the "ADD A NEW TRIP" form within the application. The form is titled "ADD A NEW TRIP" in a large, serif font. It contains several input fields and dropdown menus: "Classification of train" (a dropdown menu), "Code of train" (a dropdown menu), "Name Of Driver" (a dropdown menu), "Cost of trip" (a text input field), "Departure City" (a text input field), "Destination City" (a text input field), "Departure Time" (a text input field), "Arrival Time" (a text input field), and "Date Of Trip" (a text input field with a calendar icon). An "Add" button is located to the right of the "Departure City" field.

If any of fields not fill or any of box not chosen then a message will appear..

In the same employee interface if employee click on add a new train:

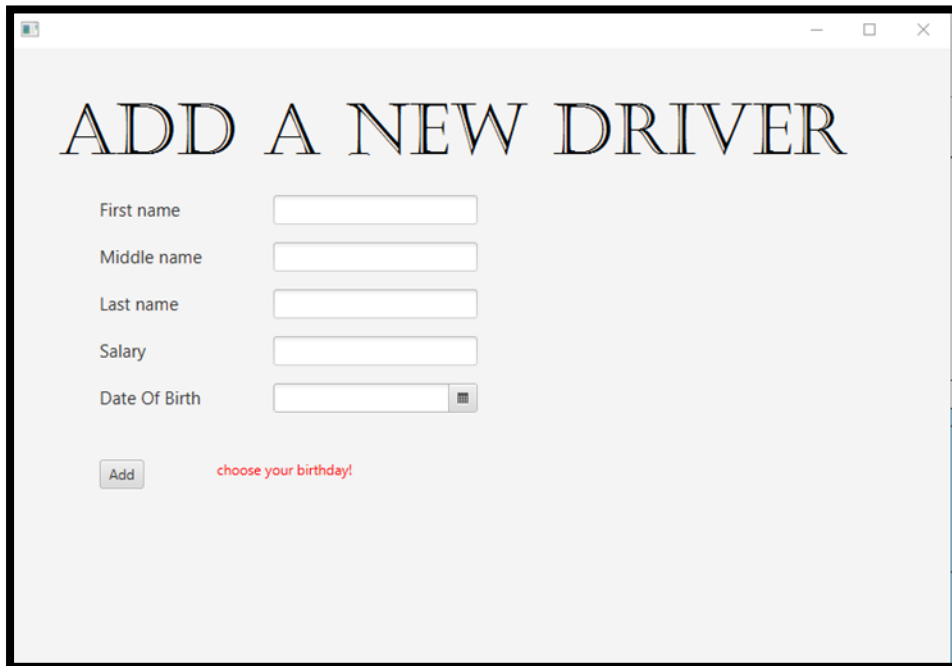

ADD A NEW TRAIN

Classification

Code

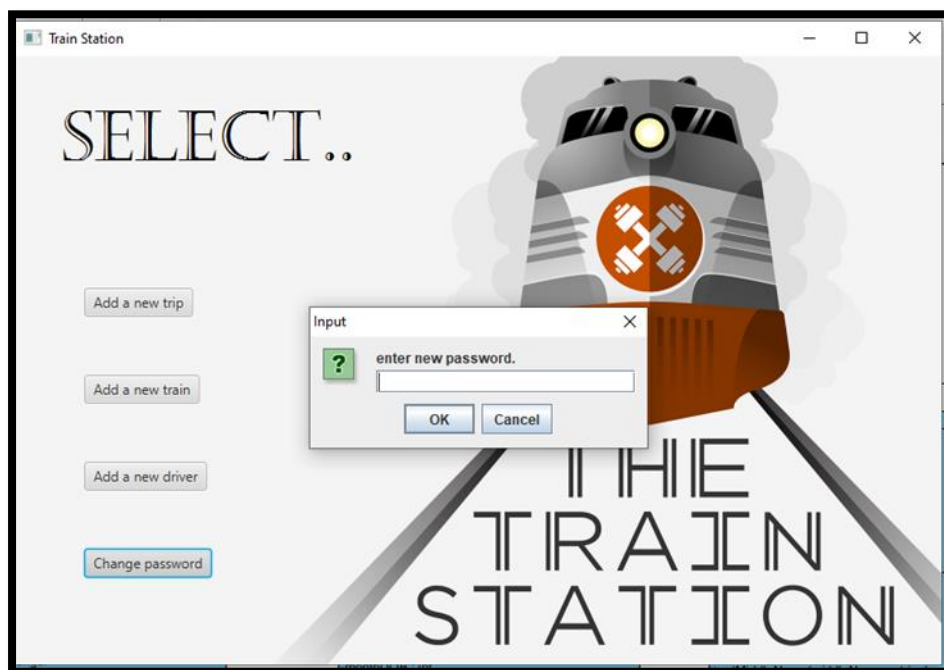

Total number of seats

If the employee click on add a new driver:

A screenshot of a web application window titled "ADD A NEW DRIVER". The window has a light gray background. At the top, the title "ADD A NEW DRIVER" is displayed in a large, black, serif font. Below the title, there are five input fields arranged vertically, each with a label to its left: "First name", "Middle name", "Last name", "Salary", and "Date Of Birth". The "Date Of Birth" field includes a small calendar icon on its right side. Below the input fields, there is a small "Add" button and a red text message that says "choose your birthday!".

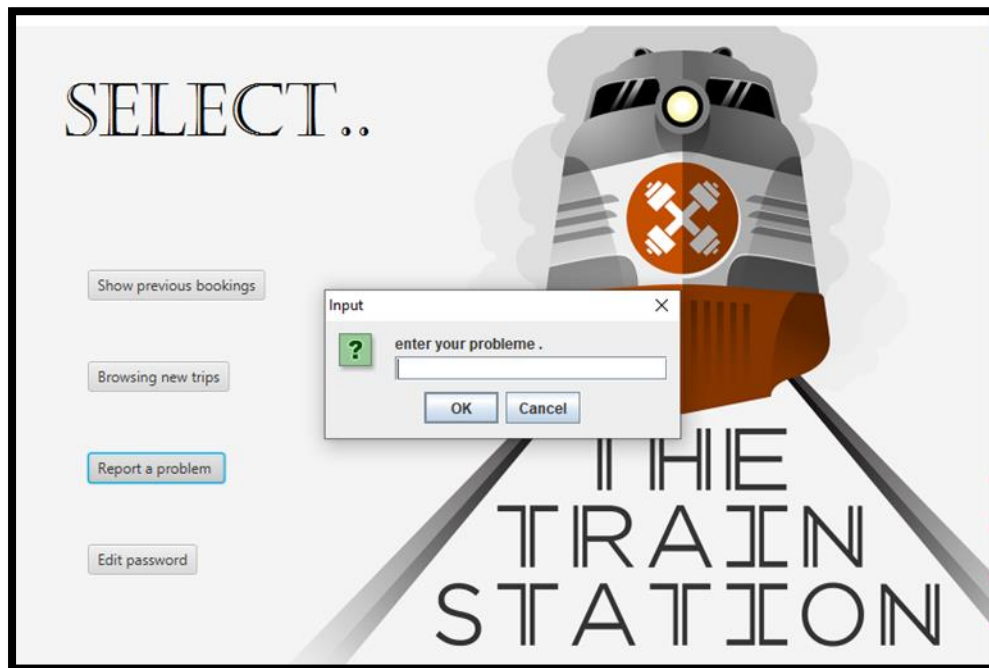

And of course employee can change his password by clicking on change password button

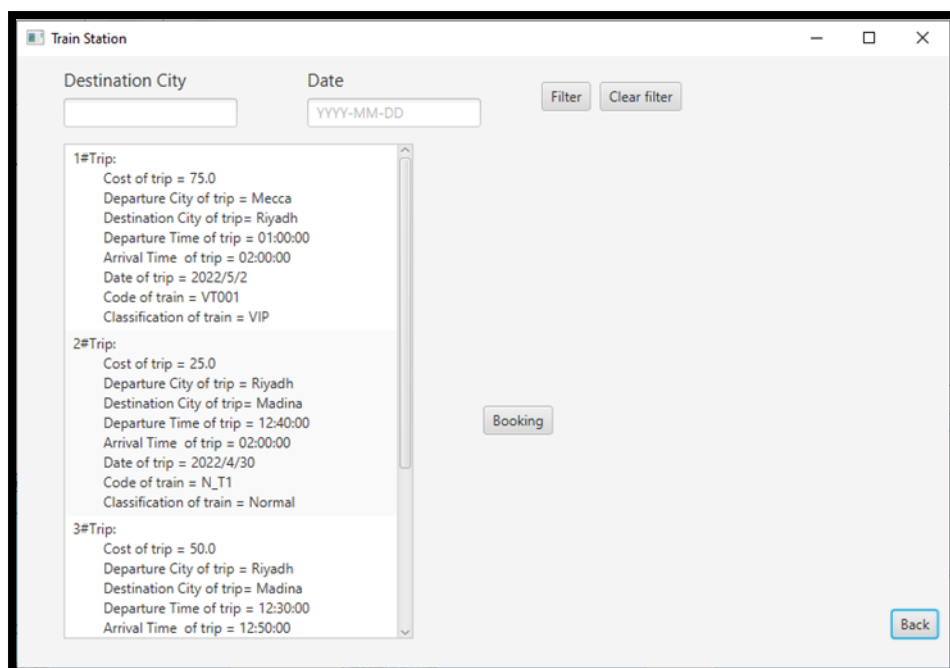

In the user interface:

Like employee can change his password

Can report any problem by clicking on “Report a problem” button:

Can browsing new trips

And can filter results by choosing destination city or date or both of them..

When user choose one of new trip .. he can click on booking button to book..

>>>>>>>>>>>>>>>>>>

Here he should enter information of passenger and click on complete button to save booking .

Train Station

BOOK YOUR TRIP

First name

Middle name

Last name

National number

Date Of Birth

Complete

Here by clicking on “show previous bookings”

The screenshot shows a window titled "Train Station" with a light gray background. At the top, it says "you can cancel booking while 3 days from booking date". Below this, there are two booking details sections. The first section, labeled "1#Booking:", has a white background and lists the following details: Cost of trip = 25.0, Departure City of trip = Riyadh, Destination City of trip = Madina, Departure Time of trip = 12:40:00, Arrival Time of trip = 02:00:00, Date of trip = 2022/4/30, Code of train = N_T1, Classification of train = Normal, Seat Number in train = 1, Date of booking = 2022/4/30, and National number of passenger = 854. The second section, labeled "2#Booking:", has a blue background and lists: Cost of trip = 50.0, Departure City of trip = Riyadh, Destination City of trip = Madina, Departure Time of trip = 12:30:00, Arrival Time of trip = 12:50:00, Date of trip = 2022/4/30, Code of train = F-01, Classification of train = Fast, Seat Number in train = 1, Date of booking = 2022/4/17, and National number of passenger = 753356874. To the right of these sections is a "Cancel Booking" button. At the bottom right of the window is a "Back" button.

The user can cancel booking any trip just in while 3 days or he cannot.

In the admin interface:

By clicking on “Create a new user”

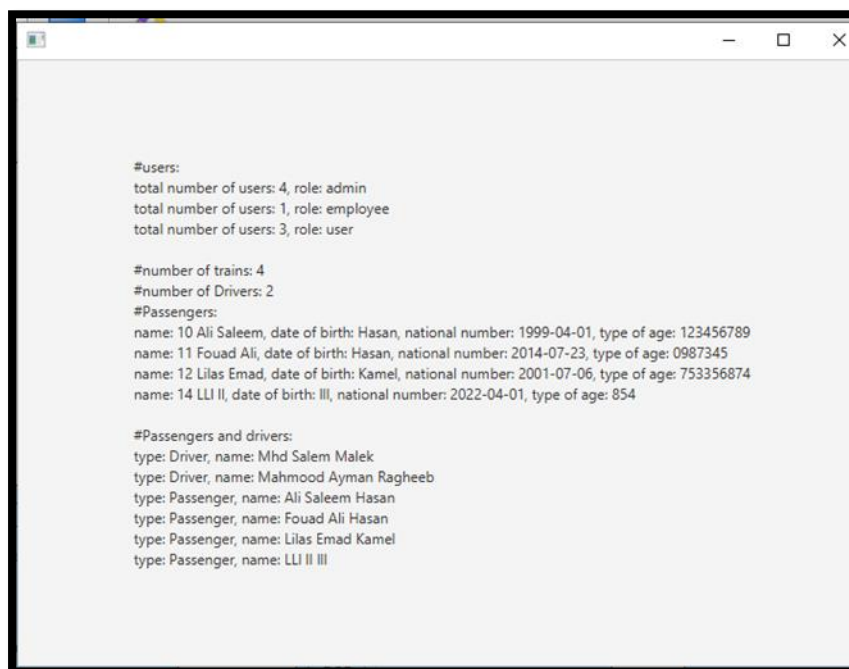

Here admin can add a new user with admin/employee role..

The screenshot shows a window titled "Train Station" with a light gray background. The main heading is "Create an account". Below this, there is a "select role" section with two radio buttons: "Admin" and "Employee". Below the radio buttons are two input fields: "Email" and "Password". At the bottom of the form are two buttons: "Create account" and "Back".
